

Upower, Inc. (UPI) is a global renewable energy producer and developer, specializing in Solar Projects and Battery Storage Production. In January 2014, our subsidiary, Upower Honduras, signed a much-publicized 20-year Power Purchase Agreement (PPA) with the Government of Honduras and their National Electric Company, Empresa Nacional de Energia Electrica (ENEE).

Associate, Energy Storage BloombergNEF Evelina Stoikou is an Energy Storage Associate at BloombergNEF, covering energy storage technologies and the lithium battery supply chain in North America.

Despite the fall in unit prices for energy storage, a total of US\$3.6 billion of investment was committed to energy storage projects in 2020, around the same amount as in 2019. A new report from BloombergNEF looking at investment trends in the global energy transition found that solar PV led a jump in energy transition investments throughout 2020.

Yayoi Sekine heads the Energy Storage practice at BloombergNEF based out of New York, overseeing a global research team that produces insights on energy storage markets, technologies and supply chain.

"The energy storage industry is facing growing pains. Yet, despite higher battery system prices, demand is clear. There will be over 1 terawatt-hour of energy capacity by 2030. The largest power markets in the world, like China, the US, India and the EU, have all passed legislation that incentivises energy storage deployments," Kou said.

3 ???· BloombergNEF reports that energy storage systems in the U.S. and Europe average around four hours in duration, while that number decreases to two hours in China, which is the world's largest marketplace. BloombergNEF ...

Bloomberg New Energy Finance (BNEF) senior analyst Logan Goldie-Scot discusses with Energy-Storage.News drivers for the recent uptick in storage across the globe, as well as insights on why America has an ideal regulatory approach to storage technologies, the recent UK tender, and the potential of dynamic markets in Asia Pacific. ...

As we look into a low carbon future, the way we store the precious energy we can generate is forcing scientists to develop better batteries. Bloomberg examines energy storage in the years ahead ...

"The energy storage industry is facing growing pains. Yet, despite higher battery system prices, demand is clear. There will be over 1 terawatt-hour of energy capacity by 2030. The largest power markets in the ...

The global energy transition is underway and will impact nearly every sector. Leveraging Bloomberg's new

AI Search Platform, clients can access BNEF's forward-thinking research and analysis on ...

A patch of land in the shadow of Mount Fuji is becoming a testing ground for energy storage, with some of Japan's leading companies trying to develop technologies such as spinning flywheels and ...

From 17GW / 34GWh online as of the end of 2020, there will be investment worth US\$262 billion in making 345GW / 999GWh of new energy storage deployments, with cumulative installations reaching 358GW / 1,028GWh by 2030, the firm forecasts in the latest edition of its Global Energy Storage Outlook report.

SolarEdge Technologies Inc. is firing about 12% of its staff and closing its energy-storage unit amid a slump in the US market that prompted the manufacturer to take a \$1 billion writedown this month.

Welcome to our guide to the energy and commodities markets powering the global economy. Today, senior reporter Jennifer Dlouhy examines the prospects for carbon capture and storage technology in ...

NINGBO, China, Oct. 25, 2024 /PRNewswire/ -- On October 23, 2024, BloombergNEF (BNEF) released its Q4 2024 Global Tier 1 Energy Storage Manufacturers list, where Risen Energy Storage has once ...

theion CEO Dr. Ulrich Ehmes discusses how the startup's sulfur crystal battery is aiming to shake up the energy storage market in a conversation with Bloomberg's Farah Elbahrawy at Bloomberg ...
