Huge Energy develops second-generation LAES systems. As our technology ensures the long-term storage of industrial amounts of energy, it is crucial for the future of renewable energy, among other things also allows you to meet your zero net emissions target faster. Provides critical network stability services such as synchronous inertia, short circuit, and dynamic ...

"We wanted to start in Lebanon because you have an energy problem, and you have renewable energy resources, with more than 300 days of sunshine," says Philippe El Khoury, CEO and co-founder of ME Green, which has offices in Lebanon and Belgium. Yet El Khoury--and others quoted in this story--have mixed feelings about the solar power boom.

On 4 August 2020, a large amount of ammonium nitrate stored at the Port of Beirut in the capital city of Lebanon exploded, causing at least 218 deaths, 7,000 injuries, and US\$15 billion in property damage, as well as leaving an estimated 300,000 people homeless. A cargo of 2,750 tonnes of the substance (equivalent to around 1.1 kilotons of TNT) had been stored in a ...
