

What is Hyme thermal energy storage?

Hyme uses a unique family of hydroxide salts that enable greater efficiency and cost savings compared to other salts in the thermal energy storage market. Derived from seawater, hydroxide salts face no supply constraints. High energy density allows for a compact system, while high thermal conductivity boosts equipment efficiency.

Where is Hyme energy located?

Hyme Energy is located in Copenhagen, Hovedstaden, Denmark. Who invested in Hyme Energy? Hyme Energy has 6 investors including EIC Accelerator and Heartland. How much funding has Hyme Energy raised to date?

Does Hyme use molten salt?

Hyme uses a molten salt system built for energy-intensive industries, such as food and beverage, chemicals and metals production. The proposed system will have a capacity of 200 MWh, and would convert electricity from renewable sources into heat that will then be stored in molten salt tanks at above 500°C; Celsius.

How many investors does Hyme energy have?

Hyme Energy has 6 investors including EIC Accelerator and Heartland. How much funding has Hyme Energy raised to date? Hyme Energy has raised When was the last funding round for Hyme Energy? Hyme Energy closed its last funding round on Feb 28, 2024 from a Grant round.

How much did Hyme raise?

Brightfolk led Hyme's first fundraising round of EUR10.4 million (\$10.8 million). It's also raised EUR8.4M (\$8.7 million) in convertible notes, and together with grants, the startup has raised a total of EUR25 million (\$26 million). The startup now plans to raise a EUR20 million to EUR30 million (\$20.8 million to \$31.2 million) Series A.

Virksomheden Hyme Energy har modtaget 18,6 millioner kroner fra EU-programmet EIC Accelerator. Hyme er en energiteknologisk virksomhed, der lagrer termisk energi i et materiale, som er produceret fra havvand, og midlerne fra EU skal blandt andet bruges til at modernisere teknologien og reducere produktionens omkostninger samt skalere virksomhedens organisation.

Welcome To Oil Tech. Oil Tech Energy is a Kuwaiti national LLC company Established in 2008, in Kuwait,

to become the leading Supply & Service Company in providing optimum & integrated solutions to our customers with a full commitment to our customer's values to achieve a success story every day in each project

Life Energy is a renewable energy company that specialises in equipment for electricity generation and for the improvement of energy efficiency in buildings and industrial facilities. The company is an approved provider of solar energy performance certificates under the authority of Kuwait's Ministry of Electricity & Water & Renewable Energy and the Dubai Electricity & Water ...

Hyme Energy has developed a novel thermal energy storage solution based on the use of molten hydroxide salts as a storage medium. We store large amounts of energy, in the order of GWs, to dispatch as power and heat. Storage facilities will be built for use in utilities and in the industrial sector including fertilizer production.

Due to the relentless efforts of its founders, management and staff serving and supporting the industry in Kuwait, Green Energy has grown to become a global organization within a short period of time. Presently, Green Energy is capable and, actively involved in providing the following services: ... Transform your ordinary home into a futuristic ...
