References for Timor-Leste Overview of CO2 Storage in Timor-Leste Total Number of CO2 Storage : 1Map All CO2 Storage : Map New Capacity Added vs Years (Aggregated over the Country): Chart |Table

How much did Timor-Leste invest in a new power system?

Timor-Leste's power stations and distribution lines, showing the Power Distribution Modernisation Project. The initial capital investment in the new power system was reported as US\$2 billion for the main power stations and distribution lines.

How is power supplied in Timor-Leste?

The district capitals and rural areas are supplied through a cumulative operational capacity of 12.1 MW. There is no transmission grid in Timor-Leste and the highest distribution voltage level is 20 kV. All power generation is based on diesel generation, using automotive diesel oil as fuel.

What is power tier in IC2?

In IC2, power tier refers to a range of EU per tick (EU/t) by which blocks and items are grouped, which defines certain ways they behave. Incorrectly matching power tiers between equipment usually results in either a lack of functionality or a surplus of explosions. (Even if it's only one, any number of unwanted explosions is a surplus!)

Is there a market for roof-top solar energy systems in Timor-Leste?

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

How many households in Timor-Leste have access to electricity?

As noted earlier, only 20% of households in Timor-Leste have access to electricity. The Government intends to address this situation in the decade ahead with a sustained program of rural electrification.
