IEC 61427-1:2013 is part of a series which gives general information relating to the requirements for the secondary batteries used in photovoltaic energy systems (PVES) and to the typical methods of test used for the verification of battery performances.

An internal conflict in the Central African Republic (CAR) started essentially on 13 April 2013, when the government of President Michel Djotodia officially took over. The fighting was between the government of the Central African Republic"s former Séléka coalition of rebel groups, who are mainly from the Muslim minority, and the mainly Christian anti-balaka coalition.
