

What will DR Congo's new power station provide?

The power station will provide an estimated 250 GWh of clean energy to the national grid of DR Congo, enough to supply 1.25 million Congolese people. Other beneficiaries include mines in the Lualaba Province, including those of copper, cobalt, gold, uranium and radium.

Where is Kolwezi located?

Kolwezi is located west of Likasi and lies approximately 302 kilometres (188 mi), northwest of the city of Lubumbashi, the nearest large city. The power station has a planned maximum generation capacity of 100 megawatts.

Why is Kolwezi a mining town?

The electricity produced will be fed into the grid of the national electricity company (SNEL). The plant will also support mining operations, as Kolwezi is itself a mining town. The Lualaba province, where the city is located, has large deposits of copper, cobalt, uranium and radium.
