At Palladium Energy, we eat, drink and breathe lithium. Okay, not really. But we are passionate about this soft, silver-white metal on the periodic table, because we believe in its green properties, cycle life and performance as it relates to battery pack technology.. Due to its core properties, lithium is desirable for use in battery cells and battery packs.

Dr. Kerry Lanza, Palladium Energy. Lithium-ion batteries have earned and substantiated their label as a "green technology." The US Environmental Protection Agency (EPA) considers lithium-ion batteries "safe" for disposal in contrast to nickel-cadmium and lead-based battery products, which can cause environmental issues with careless disposal.
