

Who is Falck Renewables?

In 2002, Falck Renewables was established, with its first renewable energy project - a 14MW waste-to-energy plant in Calabria, Italy. In 2014, through the acquisition of Vector Cuatro (later renamed into Vector Renewables), the company entered the market of asset management and technical advisory services for photovoltaic and wind power plants.

What is Isle of Skye Renewables Co-op?

Isle of Skye Renewables Co-op is a co-op dedicated to generating clean, green electricity and helping reduce reliance on existing less environmentally-friendly energy resources. It is part of a family of co-ops being developed by Energy4All Ltd in partnership with Falck Renewables Wind Limited.

Are offshore wind projects a good investment in Scotland?

Richard Dibley, Managing Director of Falck Renewables Wind Ltd, said: "These offshore wind projects will have a hugely positive impact in Scotland, something we have always been passionate about over our more than 15 years delivering onshore wind in Scotland.

Will floating offshore wind make a difference to Scotland?

Carlos Martin, CEO of BlueFloat Energy, said: "We are delighted to have signed the option agreements and now move on to delivering floating offshore wind developments at a scale which will really make a difference to Scotland.

Will Scotland become a global hub for floating offshore wind technology?

The successful bids combined plans to build a skilled workforce and boost the Scottish supply chain, developing Scotland as a global hub for floating offshore wind technology, along with establishing a new model to ensure communities benefit from offshore wind.

What is Ben Aketil wind farm?

Ben Aketil wind farm is a facility consisting of twelve 2.3MW Enercon wind turbines. It began operation in November 2007, and generates enough clean, green energy to supply around 21,000 homes.

Falck Renewables has introduced into service Assel Valley Wind Farm, located 5km south of Girvan in south west Scotland, the UK. This facility employs ten N90/2500 wind turbines and comes with an installed capacity of 25MW, generating around 84,000 MWh annually.

Energy4All was established by Baywind Co-op on a not-for-profit basis in 2002 for the sole purpose of facilitating the ownership and operation of renewable energy projects by local or community-based co-operatives. Energy4All has been involved in the development of the Project along with Falck, and manages the day-to-day operations of Isle of Skye Renewables [...]

Coriolis Energy LLP is seeking planning permission on behalf of Falck Renewables Wind Limited to build seventeen 126.5-metre turbines to form Clach Liath Wind Farm. A wind farm on the flanks of Ben Wyvis would be visible from Inverness and Dingwall, as well as a number of popular mountains in the surrounding area, it says.

The wind farm has 6 turbines with an electricity generating capacity of 15MW. Construction work commenced in 2012 and commercial operations started in September 2013. Nutberry Wind Energy is a joint venture between RDC Scotland Limited and Falck Renewables. The site lies to ...
