

Does Jackson EMC have off-site solar?

Jackson EMC co-owns off-site solar facilities with 37 other Georgia EMCs through Green Power EMC. The off-site solar facilities generate clean, renewable energy and send it to the Jackson EMC power grid. Cooperative Solar subscribers will receive energy credits on their bill while getting the benefits of solar energy.

Who is Jackson Solar LLC?

Jackson Solar LLC sells and installs ground-mounted solar systems to Jackson Electric's members who want to offset a portion of their energy usage. Our installers are NABCEP certified photovoltaic associates. Our employees take the time to get to know the homeowner and have an honest discussion on how solar energy can meet their needs.

How much solar energy does Jackson EMC use?

For reference, the average Jackson EMC household uses 1,200 kilowatt-hours of electricity per month. Solar energy blocks are \$23 each per month. Residences served by Jackson EMC are eligible to sign up for Cooperative Solar. There is no long-term commitment, and you may discontinue your solar energy commitment at any time.

How does Jackson EMC generate electricity?

The electricity you receive is generated at off-site solar facilities. You can purchase solar energy blocks from Jackson EMC at a monthly rate. When you purchase a solar energy block, you receive the electricity produced by approximately three solar panels.
