

What is Jamaica's energy source?

This page is part of Global Energy Monitor's Latin America Energy Portal. Oil and natural gas continue to supply most of Jamaica's energy, supplemented by significantly smaller contributions from renewables. As of 2020, nearly 89% of electricity was still generated by fossil fuels.

Who regulates electricity in Jamaica?

MSET (Ministry of Science, Energy, and Technology) is the government institution responsible for energy. NEPA (National Environment and Planning Agency) is responsible for permitting and tracking all environmental impact assessments. OUR (Office of Utility Regulators) is responsible for regulating Jamaica's electrical sector.

Is Jamaica following the National Energy Policy 2009-2030?

Jamaica is currently following the National Energy Policy 2009-2030. Jamaica's December 2020 update to its NDC (Nationally Determined Contribution) aims to reduce greenhouse gas emissions by more than 25% relative to business as usual levels by 2030, with the majority of reductions coming from the energy sector.

What is the cost of electricity in Jamaica?

Jamaica's electricity cost is approximately \$0.39 per kilowatt-hour (kWh). This information is provided in the energy snapshot of Jamaica, an island nation located in the north Caribbean Sea. The utility rates are above the Caribbean regional average of \$0.33/kWh.

What percentage of Jamaica's electricity is lost?

More than a quarter (26.5%) of Jamaica's electrical output is lost through poor transmission and distribution infrastructure. In 2018, the peak demand was 655 MW, and 97% of the population had access to electricity. In 2016, Jamaica consumed 2.847 billion kWh. Jamaica has no coal reserves and does not produce coal.

How much electricity is consumed in Jamaica by 2030?

In Jamaica, 20% of the electricity is consumed by 2030. Electrification rates in Jamaica are very high, reaching 98%, but operational challenges persist. For example, system losses consume 26% of electricity produced, exceeding the regulatory maximum of 17.5%.
