

What is Pangea energy?

Pangea Energy Pty Ltd was formed in July 2016 with the objective of addressing network stability issues with increased intermittent generation and reduced local, base-load generation in South Australia.

What is Pangea energy storage system?

Pangea is a 100MW/200MWh energy storage system that will provide energy security and grid stability services to South Australia.

When will Pangea energy start building a grid-scale battery?

Construction of the grid-scale battery is expected to begin before the end of the year, with plans to be operational in 2020. Pangea Energy is part of Sen Tek Energy Solutions, a multinational renewable energy project developer in South East Asia. It signed the letter of intent with Canadian energy storage systems manufacturer CellCube this week.

Pangea will combine intelligent energy storage management with control technologies and fast-response batteries, thereby creating a hybrid system that is ideal for utility scale storage. Pangea will reduce congestion constraints, allow ...
