In 2024, Kosovo completed its first ever solar auction with winning bidder, the Orllati consortium, for a 100 MW solar park in Kramovik.. This groundbreaking solar auction ensured a transparent and level playing field for qualifying bidders and is a testimony to growing investor interest in Kosovo's vast renewable energy potential.

The pace of development for solar projects in Kosovo is increasing. There is growing interest from investors to engage in developing new solar capacities across the country. Currently there are roughly 10 MW generated through small-scale solar energy projects. More projects are under development and this capacity is expected to increase ...

Held on July 21st and 22nd, participants discussed investments into the "prosumer" (an entity that both produces and consumes electricity), self-consumption markets for small-scale solar power, and the upcoming solar auction, an open procurement process for large-scale solar projects in Kosovo.

"Kosovo's transition to green energy is our common goal," said EU Ambassador to Kosovo Tomas Szunyog. "The solar heating plant is the latest EU investment in that direction, but it is far from being the only one. The EU will support the energy transition and sustainable development of Kosovo through another 100-megawatt solar ...
