

The DeltaSol[®] C+ digital regulator (optional) is suitable for management and control of 9 different types of solar thermal system also in a version with an insulating casing and protective panel (code 278001).
CHARACTERISTIC COMPONENTS . 1) Grundfos Solar 15-65 or 15-80 circulation pump 2) Safety relief valve with adjustable outlet type 253 series

Compact direct heat meter for heating solar systems. The metering module is supplied complete with: - pair of temperature probes with immersion pockets; - Y pockets for immersion probes; - electronic integrator with LCD display. Local reading via ...

The CALEFFI SOLAR[®] product range has been specially developed for use in solar thermal systems, where high temperatures can normally be reached and where, depending on the kind of system, there can be glycol. Materials and performance of the components must necessarily take into account these particular operating conditions.

Safety relief valves for solar systems. Oversized drain outlet. T&V approved according to TRD 721 - SV 100 & 7.7. Connection: G 1/2" (ISO 228-1) F. Drain connection: G 3/4" (ISO 228-1) F. Medium temperature range: -30-160 °C. Setting (Pressure): 2,5 bar. Maximum discharge rating: 50 kW. Nominal pressure: PN 10. Finish: nichelata.

Kuwait's Ministry of Electricity, Water & Renewable Energy (MEWRE), through the Kuwait Authority for Partnership Projects (Kapp), has prequalified six consortiums and companies that can bid for a contract to ...

Le serie di prodotti CALEFFI SOLAR sono state specificamente realizzate per l'utilizzo nei circuiti degli impianti solari, dove si possono normalmente raggiungere elevate temperature e, in funzione del tipo di impianto, ci può essere presenza di glicole. I materiali con i quali sono realizzati i componenti e le loro prestazioni devono

Adjustable thermostatic mixing valve for solar thermal systems. Connection: G 1/2" A (ISO 228-1) M, union. Maximum working pressure: 14 bar. Medium temperature range: 2-100 °C.

Solar storage-to-boiler connection kit, without thermal integration. With auxiliary microswitch. Complete with: - anti-scald thermostatic mixing valve with knob, for solar systems; - inlet strainers and check valves; - diverter valve with three-contact actuator and auxiliary microswitch; - thermostat with probe to actuate diverter valves in solar systems; - temperature display; - ...

Caleffi NAS30020 - Solar Water Heating System - 1 to 2 Person Household- Introducing the first complete Solar Water Heater System in a box! Caleffi offers prepackaged, specially engineered, complete, integrated

Solar Water Heating Systems that make the most of the sun's abundant energy. All materials are highly reliable and work together to ensure ...

As more and more HVAC professionals become familiar with solar water heating, many recognize opportunities to extend solar thermal technology for combined domestic hot water and space heating applications. This is a trend our parent Caleffi SpA identified several years ago in Europe, and is now a topic of growing interest here in North America.

Componenti per impianti ad energie rinnovabili / Attuatori elettrotermici, Collettori per impianti idrosanitari, Collettori e gruppi di regolazione per impianti a pannelli, Dispositivi di controllo per impianti sanitari, Gruppi di controllo ed espansione per accumuli ACS, Gruppi di sicurezza per impianti idrosanitari, Miscelatori elettronici, termostatici, Regolatori termostatici per ricircolo ...

Its function is to divert the water coming from the solar water storage to the users or to a storage system for integration according to the set temperature. This particular series of diverter valves can work continuously with hot water supplied at high temperatures from the solar water storage tank. ... CALEFFI GEO series manifolds are used ...

Pump station for solar thermal systems, flow and return connection. With insulation. Complete with: - Solar circulation pump; - 253 series safety relief valve for solar thermal systems; - filler/drain cock; - instrument holder fitting with pressure gauge; - flow meter; - return temperature gauge; - shut-off and check valve; - 2 hose connections.

Automatic air vent for solar thermal systems. Complete with: - automatic air vent for solar thermal systems; - shut-off cock complete with seal. Connection: G 3/8" A (ISO 228-1) M. Maximum working pressure: 10 bar. Maximum air discharge pressure: 2,5 bar. Medium temperature range: -30-180 °C. Finish: nichelata. Maximum percentage of glycol ...

View and Download Caleffi solar 2523 Series manual online. Adjustable thermostatic mixing valve with interchangeable cartridges for solar thermal systems. 2523 Series control unit pdf manual download. Also for: 252340, 252350, 252360, 252370, 252380.
