

Yes replacement battery model #LBT3534X is compatible with Toshiba Satellite A505-S6960. Please be aware that this is an extended battery, which is larger than your original battery and may stick out of your device a bit (it will give your laptop a lift). This battery is larger in size due to the higher mAh it holds.

Replacement battery model #DLC4L is compatible with your Canon NB-4L, and yes it is rechargeable. Lenmar batteries are designed to be 100% compatible with OEM (Original Equipment Manufacturer) batteries and chargers. You will be able to charge this replacement battery on your existing charger. If you have any further questions, please let us know!
