

Did Power Africa grant a solar energy project in Liberia?

Power Africa, through the United States Agency for International Development (USAID) awarded grants totaling \$669,330 to five solar energy companies operating in Liberia.

How many people in Liberia have electricity?

The World Bank indicates that little over 27 percent of Liberia's population had access to electricity in 2020. Of this population that has access to electricity, the vast majority resides in urban areas, with approximately only eight percent of Liberians in rural regions having access to electricity.

Does Power Africa sell off-grid solar?

Power Africa has published an off-grid solar market assessment, an assessment of off-grid PUE products for the country, and a catalog of off-grid PUE products available on the Liberian market. Power Africa puts clean energy to work by getting off-grid solar equipment into more people's reach, enhancing livelihoods & saving labor!

Why should we scale PUE in Liberia?

Scaling PUE in Liberia is a way to alleviate the energy shortfall and enhance efficiency at the same time. These grants seek to scale sustainable business models to make more PUE products available on the Liberian market, stimulate demand for the products, and test several business models to supply clean energy.

Jackery Solar Generator 1500 is an integrated system in combining the Explorer 1500 and SolarSaga 100W solar panels. The solar panels convert energy from the sun into electricity, storing in a portable power station. The system is ...
