About Constantine Energy Storage. Constantine Energy Storage (CES) was founded in 2022 as a platform to construct, own and operate best in class institutional grade battery energy storage systems ...

Energy storage is simply the ability to capture energy for use later. As we transition the world from a power system using fossil fuels, where energy is stored within the fuels themselves, to one using renewables, the requirement for energy storage increases. By 2035 the UK could need over 20GW of battery storage, according to National Grid ESO.
