

O Liebert NX é um sistema de UPS on-line, de dupla conversão, trifásico, com tecnologia Softscale(TM) que proporciona uma solução escalável para data centers em expansão. O UPS permite o aumento de 40 a 60 para 80 kVA e de 80 a 100 para 120 kVA. O UPS também pode ser colocado em paralelo para proporcionar maior capacidade ou para ...

The ®Liebert NXC 10 - 60 kVA range offers reliable and flexible secure power in a fully integrated package solution. Its highly efficient transformer-free double conversion technology delivers installation and running cost savings. With a rated output power factor of 0.9, Liebert® NXC is also able to provide 12.5% greater active

Liebert NXC 10kVA - 60kVA. Liebert NXC offer reliable and flexible secure power in a fully integrated package solution. It comes complete with highly efficient transformer-free double conversion technology providing installation and ...

Ces capacités en termes de communication rendent le Liebert® NXC compatible avec tous les systèmes de gestion de bâtiments. Communication Liebert® NXC - 10 - 20 kVA Liebert® NXC - 30 - 60 kVA Communication logicielle Liebert Multilink(TM) est un logi-ciel dont la fonction est de pré-venir les coupures inattendues de serveur et de limiter ...

Liebert® NXC 10 - 200 kVA yelpazesi tam entegre paket çözümünde güvenilir ve güvenli güç sunar. Performans özellikleri, birden fazla dahili akü konfigürasyonu ve üç fazl?/tek fazl? ç?k?? esnekli?ini bir araya getirerek BT ve üretimden perakende ve ula??ma kadar çok çe?itli uygulamalar için ideal bir seçim olur.

The Liebert® NXC 80 - 200 kVA range offers reliable secure power in a fully integrated package solution. Its combination of performance features, multiple internal battery configurations and three phase/single phase output flexibility, make it an ideal choice for a wide range of applications from IT and manufacturing to retail and transport.

The architecture of the Liebert® NXC(TM) is designed to optimise installation and simplify service with its easily removable power assembly. This architecture considerably minimises the time needed for repairs and optimises serviceability. Liebert® NXC(TM) also comes equipped with casters to facilitate ease of movement and relocation.

La gamme Liebert®; NXC 10 - 40 kVA offre une alimentation sécurisée, fiable et flexible en une seule solution entièrement intégrée. Elle bénéficie d'une technologie de double conversion sans transformateur à haut rendement qui permet de réaliser des économies d'installation et de fonctionnement. Liebert®; NXC atteint un rendement de 95 % en mode double conversion et ...

Liebert®; NXC(TM) offers reliable and flexible secure power in a fully integrated package solution. It comes complete with highly efficient transformer-free double conversion technology allowing it to provide installation and operating cost savings. Liebert NXC is a compact solution designed to optimize installation space requirements and provide enhanced flexibility to ensure superior ...

Liebert®; NXC(TM) offers reliable and flexible secure power in a fully integrated package solution. It comes complete with highly efficient transformer-free double conversion technology allowing it to provide installation and operating cost ...

Liebert®; NXC models up to 20 kVA can be configured on-site to deliver three (3/3) or single (3/1) phase output giving it the flexibility to adapt to changes in installation environments. *On selected configurations Liebert®; NXC 10-20 kVA architecture Integrated Autonomy NXC provides an excellent integrated* autonomy which results in back up times

Liebert NXC is a compact solution designed to optimize. LiebertNXC offers reliable and flexible secure power in a fully integrated package solution. It comes complete with highly efficient transformer-free double conversion technology allowing it to provide installation and operating cost savings. Liebert NXC is a compact solution designed to ...

Liebert NXC 10kVA - 60kVA. Liebert NXC offer reliable and flexible secure power in a fully integrated package solution. It comes complete with highly efficient transformer-free double conversion technology providing installation and running cost savings.

Liebert NXC 30-60kVA is a compact solution designed to optimize installation space requirements and provide enhanced flexibility to ensure superior protection for all load types (leading and lagging). Liebert NX 30-60kVA combination of performance features, impressive integrated autonomy and compact footprint make it ideal for guaranteeing ...
