Does Exide manufacture lithium ion batteries?

This was disclosed by Exide MD Subir Chakraborty after the AGM of the company. This would be in addition to the lithium ion battery facility set up by the company in Gujarat in collaboration with Leclanche called Exide Leclanche Energy. However, the existing facility does not manufacture lithium ion cells and it is more of an assembly unit.

Is Exide establishing a lithium-ion battery manufacturing facility in Bengaluru?

New Delhi: India's largest automotive battery maker Exide Industries is all set to establish a lithium-ion battery cell manufacturing facility in Bengaluru. In a communication to the exchange, the company said its subsidiary has executed a sales agreement to set up an 80-acre plant.

Why should you choose Exide Li-ion battery?

The battery's ultra-lightweight design reduces the overall weight of your bike, enabling faster acceleration and better performance. It has very low self-discharge, ideal for starting your engine after long periods off the road. Exide Li-ion can be installed in multiple positions and comes with first-class safety features. Have Questions?

Is Exide a good bike battery?
