

Where is Malawi's first solar power plant located?

The centrally located facility is Malawi's first solar power plant connected to the national grid, a project successfully completed under a public-private partnership (PPP). The President of the Republic of Malawi Lazarus McCarthy Chakwera visited the Salima district, 101 km from the capital Lilongwe, on November 16, 2021.

What are some solar energy developments in Malawi?

In Malawi, solar energy developments are helping local communities maintain sustainable energy. For instance, Bwengu Projects Malawi provides teachers in high-needs schools with solar-powered LED projectors in Bwengu, the northern countryside of Malawi.

Is Malawi a good place to invest in solar energy?

"Salima Solar is the first solar PV plant in Malawi to be connected to the national grid. As such, it is a model for future projects in several ways... In particular, it demonstrates that Malawi is an attractive destination for private sector investment in energy," says President Lazarus McCarthy Chakwera at the plant's inauguration ceremony.
