

Which is better 5kW or 10kW Solar System in Malaysia?

The 5KW solar system is better suited for medium-sized households or large families with bigger electricity needs. Regardless of the choice between monocrystalline vs polycrystalline solar panels, a 10KW solar system in Malaysia can cater to a big family with a daily electricity usage of 20kW.

Should you buy a 4KW Solar System in Malaysia?

Although you may prefer a 4KW solar system size due to its considerably lower cost, it may not necessarily be what you need. Solar panels for your house should be sufficient in catering to the electricity needs of the entire household. Knowing the price for your solar system in Malaysia is important.

Why should you choose solar energy in Malaysia?

Steadily serving Malaysia since 1949, we are with you all the way from design, installation up to maintenance. You can generate your own electricity and sell the excess to us. Solar energy is green, sustainable and does not emit pollutants when produced or consumed.
