

Who is MFT energy?

At MFT Energy, we are experts in trading power and natural gas on energy exchanges. We match the interests of supply and demand in terms of timing and place of delivery. Our specialized trading teams apply in-depth market knowledge and comprehensive data sets to analyze, build and execute their trading strategies.

What makes MFT energy a good trading platform?

The strength and success of MFT Energy's trading platform is based on our ability to keep speed and quality at high levels. This means we can support our trading teams with reliable core services, and maintain a high level of innovation, for example through algorithmic trading.

Is MFT energy a risk management platform?

MFT Energy is built for all kinds of market sentiments - our trading engine is well prepared on a daily level for handling all market situations - but what we experienced in 2022 was extraordinary and, therefore, we have continuously invested in our risk management setup.

What is MFT energy's industry seniority?

It is important to MFT Energy that our trading and support teams have comprehensive industry seniority. 64% of our staff are employed in the trading teams while 36% work in our support teams. 70% of the MFT Energy staff hold a master's degree.

What is the partner model of MFT Energy?

MFT Energy's partner model is designed to empower entrepreneurs to become the best. We have moved away from the command-and-control paradigm to allow highly-driven professionals to choose the best way to achieve goals.

MFT Energy has a professional approach towards the subsidiaries, the working environment is respectful and all about togetherness as opposed to silos. This is quite unique and something I have not encountered before in the energy business. With the opening of an Australian office, MFT Energy remains on track with its growth strategy and ...
