

Does Moldova have a new energy policy?

Moldova has committed to implement reforms embedded within the European Union's Third Energy Package, a suite of legislation adopted in 2009 aimed at creating integrated and competitive energy markets for natural gas and electricity.

Is Moldova a member of the Energy Community?

Moldova has been a member of the Energy Community since 2010 and signed an Association Agreement with the European Union on 27 June 2014. It therefore had until December 2017 to make its legislation conform to the EU *acquis communautaire*, which

What are the main energy security-related projects in Moldova?

The main energy security-related projects are the Iasi-Ungheni-Chisinau gas interconnection pipeline with Romania, and Moldova's integration into the EU electricity market through interconnections with the Romanian electricity network.

Does Moldova have a natural gas monopoly?

Moldova made progress toward unbundling Moldovagaz, the vertically integrated natural gas monopoly, to comply with Third Energy Package requirements. Romania's Transgaz completed the Ungheni-Chisinau Pipeline in 2021 and took over the operation of the entire gas transmission network in September 2023.

Does Moldova have a gas pipeline?

Moldova also transits gas to the border with Romania, to be sold on European markets in Turkey and the Balkans. The total length of Moldova's three transit pipelines is 247 km with a total capacity of 34.6 bcm/y.

These systems are integrated with their self-developed BMS battery management system, EMS energy management system, their quality control team monitors the entire production process rigorously.
