CHISINAU, August 16, 2024 - In a move to reduce reliance on energy imports from Russia, Moldova has launched its inaugural tender for wind and solar power generation, Reuters reported on Friday. The tender envisions the installation of 105 MW of solar PV plants alongside 60 MW of wind energy. Awardees will secure a 15-year fixed price guarantee, the report said.

Solar-powered products are devices or systems that make use of the abundant energy from the sun to operate and effectively carry out their intended tasks. They harness solar energy through photovoltaic (PV) cells or solar panels, which convert sunlight into electricity. But do you know there are solar versions of basic appliances we use daily?

Two solar trees that generate photovoltaic electricity are being installed in the capital city of Moldova. The construction works are in progress, and Chisinau people will soon benefit from "smart tree services". They will be able to charge up for free their mobile devices, computers, electric bicycles; have access to the Internet and relax. In the evenings, the trees ...

The company aims to meet Moldova's energy needs by developing innovative and sustainable energy sources. ABOUT US. Environment plans. Profit solutions. Pure electricity. Green power. Clean Resources. Solar Power is a clean, sustainable and environmentally friendly alternative to traditional fossil fuels. Clean resources also refer to the ...
