Hanwha Power Systems is Korea's leading industrial compressor supplier and a provider of sCO2 power generation systems and hydrogen/ammonia gas turbine solutions. The company is actively expanding its clean power generation and energy solutions business to lead the carbon-neutral era. sCO2 (Supercritical CO2) is a fluid that, under conditions ...

S-Mark Certified by : Korea Occupational Safety & Health Agency The S-Mark is a safety certification system that issues certification endorsing safety, reliability of the products, and manufacturer's quality management system that have been verified. ... Hanwha Power Systems has obtained vendor approval for a compressor provider from ARAMCO ...

- 100 % Oil-Free compressed air without any contamination: ISO 8573-1 Class 0 certification - High efficiency oriented components and low maintenance design will provide customers with lower life-cycle cost
- All-in-one package all the components mounted on the base frame - Using three-dimensional design system to eliminate potential design flaws in the design phase

Hanwha Power Systems, an energy equipment solutions provider for the maritime sector, part of Hanwha Group, signed a memorandum of understanding (MoU) with GasLog to plan and demonstrate a conversion of its LNG carrier fleet's propulsion systems to ammonia gas turbines.. The MoU, which are generally not binding, followed a feasibility study ...

Hanwha Power System is pursuing the diversification of business solutions through the development of environmentally friendly and high-efficiency power generation system. Especially the successful development of TEG(Turbo ...

In Korea, only Hanwha Systems can provide both EO&#183;IR and SAR payloads. We provides electro-optical modules and SAR modules for military satellites that monitor the Korean Peninsula and neighboring countries on near-real time basis, maximizing the effects of joint operations of Army, Navy and Air Force.
