I am not worried about my Sol-Ark Inverter shutting down, it's connected to their system right now. We all saw the post with people bragging about how they had gotten a Grey Market Deye Inverter for half the price. You take your chances when it comes to buying Grey Market products. Sometimes it works out and other times you get screwed.

where the user can monitor the performance and operation of their Sol-Ark inverter. Creating a plant is the initial step to remotely monitor a solar system, in which the users must add their Sol-Ark inverter(s) and define site-specific characteristics. The "My Plants" menu allows users to create, edit, visualize, search, and manage their plants.
