

Does Tokelau have a solar power system?

Foreign Affairs Minister Murray McCully today welcomed the completion of a third New Zealand-funded solar power system in Tokelau- meaning almost 100 per cent of the territory's electricity needs are met through solar generation. "The Tokelau Renewable Energy Project is a world first.

What is New Zealand doing with Tokelau solar?

New Zealand company Powersmart is working on the project with IT Power Australia, the Government of Tokelau and the New Zealand Aid programme. "New Zealand is advancing \$7 million to Tokelau to fund installation of the systems. All three solar plants are expected to be operational before the end of the year," Mr McCully says.

How much money does Tokelau spend importing fuels a year?

Tokelau spends about \$829,000 every year to import fuels. The government of Tokelau now plans to spend these savings on other essential services like health and education. The savings will also be used to repay the grants and financial assistance the government received from New Zealand government for this project.
