No current data showing on either the app or desktop portal, and battery is showing offline. Only had the system in for two weeks. No idea what to do to get it back again. Anyone have any ...

A week ago my battery decided to force charge - I put this down to the cold as did others on the FB group. For the last week I have been on IO and the batteries have been charging and discharging normally. Until last night. The battery (cube) was quite happy discharging powering the house. Then the force charge was suppose to start at midnight.

Hi there, first post on this forum and just looking for some advice. I operate a hybrid system with solar panels and battery and have just moved to a new energy tariff with low overnight rates (00:00 to 05:00). I want to use this to charge up my battery overnight from the grid so I use less grid electricity at peak times.
