The Power Pack also includes a Belintra VRLA battery with a capacity of 12 V - 480 Wh. Depending on the hardware chosen the battery can have an autonomy of up to 12 hours nominal. It is highly recommended to not completely let the battery discharge.

The BELINTRA ® storage and transport system eliminates stacking, which reduces the chance for tears, cuts and holes. This enhances clinical confidence and reduces costs, time and labor associated with reprocessing. It also increases efficiencies, is more ergonomic and features aseptic opening.

Northern Mariana Islands belintra storage system

The UBeFlex®; modular storage system was developed with very quick assembly, functionality, durability and stability in mind. The result is a unique storage system made from anodized aluminum and other high-quality, anti-static synthetic materials, which means it can be used in both sterile storage and non-sterile environments.

The standard ISO external dimensions, i.e. 600 x 400 mm, ensure that the trays can be used in all our storage and transport systems, medical care and medication distribution carts. The closed modules are available in depths of 50, 100 and 200 mm and the open in 100 and 200 mm. Optional dividers are available.

The system is ergonomic, robust and maintenance-free. ... BELINTRA N.V. Aalbroekstraat 27, 9890 Semmerzake + 32 9 389 00 00 info@belintra 95.598. Departments.
