

Say goodbye to the hassle of calling multiple distributors! Odyssey Procure offers shortened lead times, better pricing, financing options, and supply chain support. Join our club today to access the best pricing, financing and supply chain support for your next equipment purchases. See what our customers are saying and learn how we can help streamline your procurement process.

US-headquartered Odyssey Energy Solutions, Inc is today announcing its acquisition of the German remote monitoring and control technology company, Ferntech GmbH. This cements Odyssey's position as the distributed infrastructure sector's leading end-to-end investment and asset management platform. It is now supporting investors, developers ...

Crossboundary Energy Access (CBEA) is managing its growing portfolio of mini-grid investments using Odyssey's asset management platform. Learn how CBEA and Odyssey partnered to solve unique challenges of off-grid distributed ...

Here at Odyssey we pack A LOT into one year. Our company mission is ambitious - to scale the distributed renewable energy (DRE) sector by being the technology backbone for every phase of project development. This means connecting solar companies to finance, helping them procure equipment, and providing tools to streamline project operations and maintenance. December ...

Join thousands of solar installers, EPCs, mini-grid and C& I developers who trust Odyssey to plan, finance, procure, and operate their renewable energy projects. Our platform offers financing, advanced software tools, equipment procurement, and asset management. Learn more and get in touch with us today.

Odyssey Energy Solutions is a climate tech company transforming distributed energy globally. Odyssey offers a freemium end-to-end solution to finance, procure equipment for and operate distributed energy projects at scale across the globe. The company is facilitating more than \$1.6B of finance into the sector, delivering tools and services to ...

Discover how Odyssey Energy Solutions unblocks bottlenecks in DRE project development. Access diverse financing, procure equipment efficiently, and remotely monitor system performance. Join over 2000 renewable energy companies that ...

Odyssey Energy Solutions accelerates distributed renewable energy deployment in growth markets by connecting solar companies and financiers through its end-to-end technology platform. Odyssey's platform streamlines the solar financing process from origination to asset management, making it easier for energy companies to access capital and ...

The Mini-grid Acceleration Scheme (MAS) will aim at providing a minimum of 21,000 customers (including residential, public, commercial or productive users using single phase or three-phase effective connections) with access to reliable electricity services at an affordable tariff via privately-led off-grid solar mini-grid projects in Nigeria by the end of July 2020. MAS focuses ...

CEI Africa invites green mini-grid developers to apply for outcome-based grants that subsidize the implementation of PUE strategies connected to operating GMGs in the target countries: Kenya, Uganda, DRC, Cameroon, Sierra Leone, Madagascar, Mali and Benin. Partnerships with PUE providers, distributors, and manufacturers are encouraged. CEI Africa anticipates launching ...

Stay up-to-date with the latest renewable energy news, insights, and case studies from Odyssey Energy Solutions. Explore topics such as distributed renewable energy finance, remote monitoring and control, procurement solutions, energy access, rural electrification, and more. Discover how Odyssey Energy Solutions is unleashing distributed renewable energy.

Odyssey Energy Solutions offers a suite of project planning modules to curate standardized portfolios of renewable energy projects developed by top companies in growth markets. Evaluate portfolios with automated benchmarking and connect directly to operating assets to manage your investments efficiently. Stay up-to-date with the latest news in private capital and distributed ...

Innovative Finance: Energy Peace Partners is developing the Peace Renewable Energy Credit (P-REC) as a new financing solution that will accelerate the transition to renewables in conflict-affected settings. PRECs monetize renewable energy generated in fragile states in order to meet increasing corporate commitments to sustainability and social responsibility. This extends ...

Powertrust helps distributed renewable energy entrepreneurs access global climate finance via D-RECs, connecting high-impact projects across emerging markets with the world's largest corporate energy buyers. The D-REC, or Distributed Renewable Energy Certificate, is a new market instrument developed by the D-REC Initiative to create a global market for DRE. ...

Odyssey Energy Solutions, in collaboration with the Africa Minigrid Developers Association (AMDA), is revolutionizing energy access through a groundbreaking pilot of remote monitoring and control technology. This initiative aims to enhance the efficiency and reliability of minigrid systems across Africa, driving sustainable energy solutions for ...

Read Odyssey Energy Solutions Subscription Terms & Conditions to understand the agreement between the company and its customers for using its solar-related project planning, pricing, and technology services. Learn about acceptance, definitions, and important terms like License Term, Order Form, and Intellectual Property Rights. Effective from 4/1/2023, read on for more details.
