When solar panels rated at 260 watts of power are manufactured, the power of the panels is not exactly 260 watts, but is Normally distributed with a mean of 260 watts and a standard deviation of 8.5 watts. When solar panels are connected together in series on a roof, the power generated is limited by the panel with the least power. For example ...

Hyundai Solar's meticulous design and production techniques ensure a high-yield, long-term performance for every solar panel produced. Hyundai Solar also uses rigorous quality control and vertical integration to guarantee their solar panels meet the highest quality standards possible. The Hyundai Solar HiS-MG line is a robust all purpose ...
