Mike founded Pelican Energy Partners in 2012 by bringing together a unique team of operationally-focused executives with deep experience in oilfield manufacturing and service companies. He also assembled a group of investors that consists of over thirty former CEOs and twenty former energy company business owners, providing a rich resource for ...

Nuclear energy is the best solution for scalable and reliable carbon-free power generation. We believe all energy sources are needed to meet the growing global demand for electricity, but the only carbon-free solution that can supplement base-load generation, such as natural gas and coal, during this long period of energy transition is nuclear energy.

Being selective in our approach to team building allows Pelican Energy Partners to leverage a unique depth of core operational understanding, which translates to real value for our management teams and entrepreneurs. Simply put, we can assess, structure, and grow investments in a way that cannot be done by a generalist fund filled with former ...

Laos: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

However, some energy ...
