

Philippines hpe smart storage energy pack 1 firmware

Does the HPE smart storage hybrid capacitor support multiple devices?

The HPE Smart Storage Hybrid Capacitor is only supported on Gen10 and later servers. One energy pack option can support multiple devices. An energy pack option is required for 900 series controllers. Once installed, the status of the energy pack displays in HPE iLO.

Does HPE iLO support multiple devices?

One energy pack option can support multiple devices. An energy pack option is required for 900 series controllers. Once installed, the status of the energy pack displays in HPE iLO. For more information, see the HPE iLO user guide on the Hewlett Packard Enterprise website.

What's the difference between energy pack and Smart Storage Battery?

NOTE: System ROM and firmware messages might display "energy pack" in place of "Smart Storage Battery." Energy pack refers to both HPE Smart Storage batteries and HPE Smart Storage Hybrid capacitors. Make sure that a supported Smart Array P-class Gen10 controller is installed. The installation is complete.

How do I install the energy pack?

Install the energy pack option. Route and connect the cable. Do not connect the energy pack while the server is operating. Verify that all power to the server has been removed. Install the fan cage. Install the access panel. Install the server into the rack. Connect each power cord to the server. Connect each power cord to the power source.

It exists in three interface formats: the HPE SSA GUI, the HPE SSA CLI, and HPE SSA Scripting. All formats provide support for configuration tasks. Some of the advanced tasks are available in only one format. The diagnostic features in HPE SSA are also available in the standalone software HPE Smart Storage Administrator Diagnostics Utility CLI.

HPE SSA replaces the existing HP Array Configuration Utility, or ACU, with an updated design and will deliver new features and functionality for various Smart Storage initiatives as they come online. HPE Smart Array Advanced Pack 1.0 and 2.0 features are now part of the baseline features of HPE SSA, with the appropriate firmware. HPE SSA will ...

Make sure that a Smart Array P-class Gen10 controller is installed. Make sure that you have the following items available: Storage controller backup power cable (ships with the storage controller) Energy pack option. If you are installing the HPE Smart Storage Hybrid Capacitor, verify that the system BIOS meets the minimum firmware requirements.

Philippines hpe smart storage energy pack 1 firmware

The capacitor pack can support up to two devices. This server supports the HPE Smart Storage Hybrid Capacitor with the 145mm cable. Before installing the HPE Smart Storage Hybrid Capacitor, verify that the system BIOS meets the minimum firmware requirements to ...

Hewlett Packard Enterprise offers the HPE Smart Storage Battery as a centralized backup power source options to back up write cache content on the controllers in case of an unplanned server power outage. Once installed, the status of the energy pack displays in HPE iLO iLO.

The health of the energy pack can be viewed using any of the following options: HPE iLO GUI under the Power & Thermal > Power. The controller's GUI & CLI tools along with HPE iLO Redfish under StorageController > CacheSummary. HPE iLO Redfish Chassis resource. Upon starting, the storage controllers exchange information with HPE BIOS during POST and ...

Use this procedure to remove and replace either the HPE Smart Storage battery or the HPE Smart Storage Hybrid Capacitor. NOTE: System ROM and firmware messages might display "energy pack" in place of "Smart Storage Battery." Energy pack refers to both HPE Smart Storage batteries and HPE Smart Storage Hybrid capacitors.

Updating firmware or system ROM. Configuring the server. Configuring storage controllers. Managing the HPE NS204i Boot Device. Deploying an OS. ... This server supports the following power options--collectively known as energy pack: HPE Smart Storage Battery. HPE Smart Storage Hybrid Capacitor. One energy pack supports multiple devices.

The HPE Smart Storage Administrator (HPE SSA) is a web-based application that helps you configure, manage, diagnose, and monitor HPE ProLiant Smart Array Controllers and now other storage devices as well, such as host bus adapters (HBAs), HPE Storage controllers, and future devices such as SCSI Express drives, and SAS switch devices. HPE ...
