Cable Landing Station unit was delivered in March 2021 and installed at Rupert's. This will see the fibre optic cable landing in St Helena in 2022. A Power Purchase Agreement with PASH Global was signed in 2020 to provide wind turbine, solar power and battery storage capacity to St Helena -a big step to meeting the 100% renewable energy target.

Saint Helena, a remote island located in the South Atlantic Ocean, has a small population of approximately 4,000 residents. The island's remoteness has historically posed significant challenges for telecommunications, resulting in a reliance on satellite communications. However, in February 2023, the island was connected to Equiano, a subsea cable linking South Africa ...
