

What is a powersafe SBS 110 battery?

The EnerSys PowerSafe SBS 110 battery range utilizes unique and proven technology to provide a superior range of valve-regulated batteries with an extended service life in compact and energy dense configurations.

What battery sizes are available for powersafe SBS batteries?

PowerSafe SBS batteries are available in both 12-volt front-terminal and 2-volt OPzV and OPzS DIN container sizes, and an extensive range of Ampere-hour (Ah) capacities, providing flexibility to fit any setup.

What is the maximum operating temperature of a powersafe SBS battery?

The maximum operating temperature of the PowerSafe SBS battery series can be extended to 80°C via an optional metal jacket. Features Specialist Power Systems are an approved sales partner to EnerSys in the UK with expert technical knowledge.

Why should you choose powersafe SBS batteries?

Even in the most challenging operating environments, they continue to deliver reliable power and meet all SR-4228 and NEBS(TM) level 3 testing requirements. Widely used in cable TV, emergency lighting, power generation, and offshore applications, choose PowerSafe SBS batteries for proven performance and peace of mind.

Where are powersafe SBS batteries marketed?

PowerSafe products are marketed under the SuperSafe brand in the following specific countries - India, Indonesia, Malaysia, Singapore, Thailand, Australia and New Zealand. Featuring advanced Thin Plate Pure Lead (TPPL) technology, PowerSafe SBS batteries deliver long life, high energy density and superior shelf life for telecommunications.
