

# Price of solar panel in today United Kingdom

How much do solar panels cost in the UK?

For a 3-bedroom house in the UK: Solar panels cost roughly £9,600 for a 4.5kW system (including installation and a storage battery). Installation costs usually represent 10 to 20 per cent of the overall solar panel system price. You'll pay 0 per cent VAT on the cost of your solar panels and installation.

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 - £1,500 whereas polycrystalline solar panels cost about £900 per kW.

Is now a good time to get solar panels in the UK?

In fact, between March 2023 and 2024, the median cost per kilowatt (kW) for a 0 to 4kW solar panel system has dropped more than 20 per cent. Combine that with the falling costs of solar battery storage, and the fact the energy price cap rose 10 per cent in October 2024, you'll find that now is a great time to get solar panels in the UK.

How much does a solar panel & battery system cost?

A combined solar panel system and battery setup can cost up to £15,500 for an average 2-3 bedroom home with a 4kW solar array and a 9 - 10 kWh battery. The estimates above outline the total costs expected for a system where the battery can fully charge to its maximum capacity.

How much does it cost to install a solar panel?

In general, labour costs will make up 25-30% of your total installation costs. The most common way to calculate the labour costs of a solar panel installation is to charge 20p per watt. So, for a 4kW system, you would pay 20p for 4000 watts, which comes to £800. Several factors can impact labour costs, including:

How many homes in the UK have solar panels?

More than 1.39 million homes in the UK have solar panels, as of June 2024, according to government data. Solar panels not only save you money, but they can also earn you cash, all while helping to reduce the planet's carbon footprint. And they'll still generate electricity on gloomy days, which the UK experiences a lot of.
