

Where is solar Fiji located?

Lot 41-42 Pilling Road, Nasinu, Suva. Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as Victron Energy, Canadian Solar, Narada Batteries and QCells.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

When was the first off-grid solar system installed in Fiji?

In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region. Clay Energy's first PV grid-connect system (18kW) was installed and commissioned in 2008, being the first in the region.

Why should you choose solar Fiji?

As an official partner of Victron Energy, our quality solar products and services are designed to maximize the longevity of your system, providing energy efficiency and cost savings for the long term. If you're looking for a reliable and experienced renewable energy service provider in the South Pacific, look no further than Solar Fiji.

Who makes the best solar inverter in Fiji?

Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji. Fronius, Sungrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance.

What is SMA Sunny Island's New solar/diesel/battery hybrid system?

February 2013 saw the commissioning of the then-largest privately owned PV/Diesel/Battery hybrid system in the region. The system utilized the newly released SMA Sunny Island Multicluster technology with 228kWp of PV and 1.1MWh of battery storage.

Our wide range of solar panels and chargers provide you with an eco-friendly solution to supply a residential or commercial application with green energy. All solar panels are ideal for remote and isolated locations, saving the cost of running power mains wires. SPE's panels combined with our specially designed intelligent battery chargers ...

Evidently, solar and wind resources are still under-utilized in Fiji; however, there are projects to develop a 5

MW solar farm in Qeleloa, a 1 MW PV system on the island of Taveuni, and a grid-interfaced solar power plant on Viti Levu [25]. The grid frequency is 50 Hz, and the nominal voltage is 240 V.
