

The move coincided with OnePower's successful bid to develop the first utility-scale solar project in Lesotho, a 20-megawatt project that will sell electricity to Lesotho's central grid in addition to OnePower's minigrid work. OnePower expects that project, named Neo 1, to start delivering power to Lesotho's central electric grid next year.

Lesotho Energy Policy 2015-2025 is a framework policy that sets out the strategic direction of the country's energy sector developments. It is aligned to the Vision 2020 and the NSDP and promotes development of environmentally cleaner renewable energy and increasing its share in the country's energy mix. Energy access targets:

Renewable Energy. From complex wind and solar transactions to tax equity and infrastructure advisory, we help renewable energy stakeholders create financially sound, sustainable businesses. Our solutions support developers, IPPs, EPCs, utilities, tax equity investors, and private equity funds.
