

How do solar home systems work in Burkina Faso?

Solar home systems provide electricity to rural people in Burkina Faso. More awareness of how to build and use them is needed, however, and so are better financing options. Milz Installing a solar home system. Driving along the streets of Burkina Faso's cities you'll find blue solar-module panels blinking in the sun.

How is solar energy used in Burkina Faso?

In Burkina Faso, relay stations for telecommunication companies have been run with solar energy since 1982. Today, cell-phone charging stations, lamps, radios and televisions are powered with solar devices in many places that are not connected to the grid. The cell-phone networks developed earlier and better than the power grid.

How much does a solar module cost in Burkina Faso?

The elimination of customs charges on solar modules in 2003 had a positive impact on Burkina Faso's solar markets. Modules now cost between two and three euro per watt. Solar modulators cost between EUR 20 and EUR 60. Solar batteries are less expensive than in Europe.

How will BGFA support Oolu in Burkina Faso?

With the support of BGFA, Oolu will scale up its current business activities in Burkina Faso, aiming to establish over 28,000 additional subscriptions over a four-year period by providing solar home systems for lighting, mobile phone charging, TVs, fridges and freezers as well as power sources for commercial customers.
