The Sonoran Solar Energy Project right-of-way covers a total of 3,320 acres, most of which is on public land. The project will include photovoltaic arrays, support structures, energy storage, and a generation tie (gen-tie) line to connect to a Salt River Project (SRP) utility substation. The project is expected to produce 260 megawatts of ...

RWE aims for the rapid expansion of renewable energies. As a complement to onshore and offshore wind energy, photovoltaics and storage systems are essential for the success of the energy transition. This is why, the company plans to accelerate the development of solar and storage projects in Europe, Australia, and America.
