

Are lithium-ion batteries causing fires in Guernsey?

The rise in fires has been credited to lithium-ion batteries, which are often used as an alternative to petrol power, in the likes of small tenders and jet-skis. Kieran Higgs, assistant harbourmaster at Guernsey Ports, says that batteries require particular and careful attention.

Are battery fires on Channel Island a threat to Guernsey?

Harbour officials in Guernsey have warned of the catastrophic consequences of battery fires on Channel Island seas. Guernsey Ports has expressed concern that an increasing number of incidents on boats and other watercraft have been recorded in the bailiwick in recent years.

How do you store a loose battery?

The best option for loose batteries is to store them in a way that allows them to lay side-by-side. Batteries are a choking hazard, especially coin cells and other small batteries. They should always be stored in a place that is out of the reach of toddlers and small children.

How do you store a coin battery?

This is especially likely if a mixture of different sized and shaped batteries are stored in the same bag, with coin batteries easily becoming stacked or sandwiched between the poles of other batteries by mistake. The best option for loose batteries is to store them in a way that allows them to lay side-by-side.

What temperature should a battery be stored?

When it comes to temperature, battery storage is actually pretty easy. The ideal temperature for alkaline batteries is about 60°F, while the preferred range for lithium batteries is between 68°F and 77°F. That being said, all batteries will keep just fine as long as they're within the general range of what would be considered room temperature.

Why are there so many fires in Guernsey?

Guernsey Ports has expressed concern that an increasing number of incidents on boats and other watercraft have been recorded in the bailiwick in recent years. The rise in fires has been credited to lithium-ion batteries, which are often used as an alternative to petrol power, in the likes of small tenders and jet-skis.
