San Marino -- a small but progressive republic -- has achieved an impressive milestone in its renewable energy journey. Over the past 15 years, the country has installed more than 4,200 private solar systems.. This remarkable achievement places San Marino among the global leaders in solar power production, with 450 watts of energy produced per capita.

Answer 1 of 4: My husband and I are traveling to San Marino in a few days to see the towers and castle for a book he is working on. We also would like to visit the weapons museum and the state museum. Will I find a lot of things closed on Sunday? (like the...
