

Schmid Group is a technology group based in Freudenstadt, Germany. Founded in 1864, the group of companies employs more than 900 staff members worldwide and has technology centres and manufacturing sites in Germany, China, Turkey and the USA in addition to several sales and service locations worldwide.

SCHMID has successfully installed and commissioned three EverFlow energy storage systems in China. The order was received from one of the world's leading producers for high-efficiency solar cells. The batteries are charged by a photovoltaic system and are controlled by a companywide energy management system.
