

Minister of Mining and Energy Dubravka Djedovic and Dusan Zivkovic, General Director of the state-owned power utility EPS, have signed a contract with a consortium comprising Hyundai Engineering and UGT Renewables (UGTR) for a significant project to develop self-balancing solar power plants in Serbia.. The initiative aims to construct large ...

2 ???&#0183; Power and energy market news of Serbia and region of South East Europe. ... Solar and wind energy trends in European markets for December. December 17, 2024. Albania: Vega Group completes 10 MW solar power ...

The Government of Serbia has decided to develop a special purpose spatial plan for a group of solar power plants totaling 1 GW in connection capacity, which will include battery energy storage systems with at least 200 MW of operating power. Hyundai Engineering and UGT Renewables have been selected as the strategic partners for this project.The ...

Alcazar"s Expansion in Serbia. Alcazar Energy Partners is actively working towards its goal of building US\$600 million in renewable energy assets in Serbia. This acquisition represents a step towards becoming the largest renewable energy platform in the region, with a total target of US\$1.2 billion in assets.

A total of 130 MW of solar power is connected to Serbia"s distribution system. Another 150 MW is in preparation, ready for connection, so in the spring next year we will have about 300 MW of solar power plants connected to the distribution system - was the conclusion of the panel "Challenges and perspectives for the development and construction of solar power plants" held ...

Serbia has launched its second renewable energy auction, aiming to support wind and solar projects through a 15-year contract-for-difference (CfD) scheme. The auction will allocate up to 300 MW for wind energy, with a maximum bid price set at EUR79/MWh, and up to 124.8 MW for solar PV projects, with a maximum bid price of EUR72/MWh.

Romania unveils new energy strategy for 2025-2035, aiming for security, sustainability and competitiveness; Serbia: Parliament lifts moratorium on nuclear energy, opening door for nuclear power plants; Serbia launches first solar power plant tokenization project; Greece: Renewable energy surpasses fossil fuels in 2024 as production soars

BELGRADE, October 16, 2024 - The government of Serbia has signed a deal with a consortium of US player UTG Renewables and South Korea"s Hyundai Engineering & Technology for the development of 1 GW of solar, Reuters reported on Wednesday. The consortium will construct six solar plants, according to the country"s energy ministry. An agreement on the installation was ...

Serbia has launched its second renewable energy auction that focuses on wind and solar projects, backed by the European Bank for Reconstruction and Development (EBRD). The auction includes wind projects up to 300MW and solar PV projects up to 124.8MW under a contract-for-difference (CfD) scheme, with maximum bid prices at EUR79/MWh for wind and ...

2. Integration with European climate goals. Although not a member of the European Union, Serbia is aligning its energy and environmental policies with the EU's ambitious European Green Deal and Fit for 55 targets, which aim to reduce carbon emissions by 55% by 2030 and achieve climate neutrality by 2050. Serbia's participation in Europe's energy market ...

In Serbia, Fortis Energy is actively working on several high-profile projects, including the development of total capacity with 509 MW wind farms, as well as solar power projects with total capacity of 387 MWp. ... geothermal, and other renewable energy investments in Turkey, the Netherlands, and the Balkans. Within Fortis Energy, solar power ...

2 ???&#0183; Power and energy market news of Serbia and region of South East Europe. ... Solar and wind energy trends in European markets for December. December 17, 2024. Albania: Vega Group completes 10 MW solar power plant in Lushnje. December 16, 2024. Load More . Wind.

Serbia's upcoming second renewables auction, scheduled for later this month, aims to procure 124.8 MW of solar power with a ceiling price of EUR72 (\$75.30)/MWh. This price is lower than the EUR90/MWh ceiling offered in the country& ... According to details available on the the Association of Renewable Energy Sources of Serbia's (OIE Srbija ...

Serbia is expected to rapidly transition its production of energy from fossil fuel to renewable energy. Emergy, along with a local partner, is developing Alibunar, which is the most advanced project in our portfolio and will have an installed capacity of 168 MW. ... and the Zabalj PV solar project will have a combined installed capacity of 644 ...

Solar energy in Serbia December 7th, 2011 | News The average intensity of solar radiation on the territory of the Republic of Serbia is between 1.1 kWh/m2/per day in the north and 1.7 kWh/m2/per day in the south - in January and from 5.9 kWh/m2/per day to ...

Germany's largest independent renewable energy operator Capital Stage announced this week that it had acquired two solar parks in development in the Netherlands and which are expected to be connected to the grid in October of next year. Capital Stage, based in Hamburg, Germany, currently operates 165 solar parks and 64 wind farms throughout Europe...
