Luxembourg's integrated national energy and climate plan (PNEC) is an important element of the Grand Duchy's climate and energy policy. It sets out the national climate and energy objectives for 2030, as well as the policies and measures needed to achieve them.

Regarding the share of renewable energy in gross final energy consumption, the objective is to reach 25% by 2030 through a constant deployment of wind, solar and heat pumps in Luxembourg. For the energy efficiency dimension, the ambition is to reach a rate of 40 to 44% by 2030, by moving away from fossil fuels in new construction, by increasing ...

Le plan national intégré en matière d'énergie et de climat du Luxembourg (PNEC) est un élément important de la politique climatique et énergétique du Grand-Duché de Luxembourg. Il présente les objectifs climatiques et énergétiques

nationaux ; l'horizon 2030, ainsi que les politiques et mesures permettant de les atteindre.
