

Solar Innovations is successful because of listening to our customers and delivering a complete line of innovative glazed products. All of our decisions are based on what is best for the company, team members, customers, community, and environment. As a single source provider of custom glass structures, skylights, windows, and doors, Solar continues to introduce new products.

SOLAR INNOVATION by AWEIC cuenta con más de 30 años de experiencia en el campo de la ingeniería eléctrica, ahorro energético y energía renovable. Nuestra compañía está compuesta de ingenieros PE, acreditados y certificados por el CIAPR y por el programa de Política Pública Energética del DDEC de Puerto Rico.

Fixed. We offer fixed skylights in virtually any size and can accommodate a wide range of configurations, including single slope, pyramids, segmented radius domes, barrel vault, hip end, glass roofs, roof lanterns, and more. Our skylight systems can attach to virtually any substrate and are suited for both residential and commercial applications without size or design limitations.

With over 30,000 projects delivered since 1998, Solar Innovations is proud to showcase our wide array of products through this searchable photo gallery. While there are many completed projects not shown in this gallery, we are expanding our library of over 10,000 photos each month to provide our customers with a valuable resource to inspire and build their next project.

Examples are shown as accurate as photography and printing processes allow. Final finish selection should be made from a physical sample; contact Solar Innovations for samples. Product and finish options are subject to vendor availability. Solar Innovations reserves the right to discontinue any option at any time without notice.

Nearly any glazing selection available on the market today can be used with Solar Innovations' sliding glass windows. This versatility allows for glass or polycarbonate, monolithic, or insulated options to be integrated into our ...

Your Local Maryland Solar Provider Celestial Solar Innovations has been making life better for our Maryland neighbors for over 20 years. We love helping clients save money while enjoying the luxuries of energy independence. 418 Oella Avenue Suite B Catonsville, MD 21228 (443) 455-1779 info@gocestentialsolar

**Pivot Doors.** Pivot Doors are ideal for oversized openings in interior and light exterior applications. Each door's pivot point is custom located by request; center and off-center pivot locations are available. The large size openings and minimal floor space interruption allow for sizable items to pass through the framework that may have been hindered by a traditional entrance.

**Wood Bi-fold Doors, or Folding Glass Walls,** can be designed and configured like their aluminum counterparts. Through our patented framing process, utilizing a specialty glue-laminated (scantling) wood, these doors can be custom tailored to match the finish of the surrounding space.

**Expert Help.** Pool and Spa Enclosures by Solar Innovations are manufactured for hotels, apartment complexes, and universities world-wide. Solar Innovations offers pool and spa enclosure expertise in helping plan the layout, heating, cooling, dehumidification, and any other potential challenges that may arise, which clearly sets us apart from our competition.

Solar Innovations will continue to ensure the quality of our products through the voluntary participation in the National Accreditation and Manufacturing Institute's program. As a proud manufacturer of NAMI, NFRC, and ENERGY STAR qualified products, Solar Innovations stands behind the quality of the products we deliver to customers.

**RES:** 1MW off-grid solar energy system across three main atolls of Tokelau. The project includes : 4032 solar modules, 196 string inverters, 112 DC charge controllers, 84 battery inverters and 1344 batteries in 48V banks. ...

Solar Innovations offers four styles of heaters, including floor mounted and roof-hung units, where vents are placed in the walls, electric roof-hung units that are vent-less, and a wall mounted, direct vent version. All heaters run efficiently through thermostatic temperature controls and a matchless ignition.

**Contact.** There are several ways to contact Solar Innovations. You can submit a request for by filling out a quote request form. Additionally, you can reach out directly to our team by calling 1-800-618-0669 or emailing [email protected].

Solar provides so many custom products that it is hard to keep up with our list of innovations. Every standard product we sell has different variations in strength to support the projects and conditions required by our customers. Below we have separated our category list into three main sub categories of architectural glazed products.
