Solar heat in Finland was (1997-2004) 4-5 GWh and (2005) 6 GWh. [1] Thus, Finland has installed 10% of its objective in 11 years time (1995-2010). The solar heating has not been competitive due to cheap alternatives (electricity, fuel oil and district heating) and the lack of support systems. Companies and public organizations may receive ...
