Using a solar battery can help users to reduce the amount of electricity they would normally buy during peak hours. The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price compared to off-peak rates.

Listed price is valid for solar panels only, installation in not included. The price depends primarily on the size of solar panels For panels (365-420w), expect to pay between R2000 and R3500. Get quotes Solar panels installation. R10,000 - R15,000;
