Solarmeter® by Solar Light Company, LLC is the industry standard for UV and visible light radiometers that measure both indoor and outdoor light sources. Our NIST-Traceable meters are used to monitor lamp irradiance and aging for UV sterilization, reptile husbandry, indoor tanning, red/blue light phototherapy, UV curing and UV Index.

So, to tap the high solar irradiation in New Zealand, and no issue of congestion, a joint project was launched by the UK solar company Hive Energy, and the developer Solar South West. This project, which is named the 350 MW Joint Venture, aims to install 350 megawatt-photovoltaic panels and support the vision of the country's government of ...
