

What is the Guide to solar energy in Sudan?

"The Guide to Solar Energy in Sudan" is the first booklet of its kind in Sudan that targets consumer awareness at a "grass root" level, proudly developed by Clean Energy 4 Africa, and supported by several of the largest solar energy companies in the country.

What are the knowledge and data gaps in Sudan?

The idea behind this booklet is to address the knowledge and data gaps in Sudan that hinder the development of the solar energy sector. Over the past few years, demand for solar energy solutions by Sudanese homeowners, businesses, and farms has been rising and as a result, a lot of new companies entered the market.

Where is Sudan located?

With the geographical position lying between latitudes 3° N and 23° N, and longitudes 21° E and 39° E, Sudan is one of the largest countries in Africa. Ranked 166 out of 187 countries in the human development index, Sudan's current energy situation is extremely alarming.
