

How many solar homes are there in the Solomon Islands?

"Solomon Islands currently has one of the lowest levels of access to electricity in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this project alone, we received over 6,000 applications to obtain only 2,000 solar home systems," said Mr Aimaea.

How long do solar panels last in Solomon Islands?

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems.

Why is the Solomon Islands so famous?

The country is more renowned for its recent upheavals, which have been stopped for the time being. At the time the first Europeans began visiting the Solomon Islands, the country was nothing more than separate Pacific islands notorious for cannibalism and headhunting. Spanish explorers were the first to visit the archipelago in the 16th century.

Where can I find information about the Solomon Islands?

Visit the National Museum of Solomon Islands (Mendana Avenue, Honiara) for further information about the country's history. Due to European influences throughout the Solomon Islands' history, Christianity is the predominant faith in the country.
